1. The graduation credits of the department include 28 credits of general education courses [6 credits of general English courses and 22 credits of general education courses including 12 credits of core general education courses which are divided into "social care" (including "humanistic cultivation" and "social Studying" in two dimensions)", "Innovation and Creativity" (including "Art Perception" and "Scientific Inquiry" in two dimensions)", "Health Promotion" (including "Self-Exploration" and "Biological Medicine and Health Care" in two dimensions)" , each type of core general education course must have at least 2 courses and 10 credits of multiple elective courses. For the complete method, please refer to the website of the General Education Center.], 55 credits of professional compulsory courses ("Python Programming" is a compulsory course for the Faculty of Humanities and Social Sciences) , and 45 credits of elective subjects (including 9 to 14 credits of external subjects, but credits of Japanese language courses offered by Faculty of Humanities & Social Sciences, Faculty of Tourism, Faculty of Management, night time courses, General Education Centre, and Physical Education, Military Training, Korean courses offered by Language Centre, and Japanese Business Writing in the Smart Commerce Programme are not recognized. A total of 128 credits. Most of the elective courses listed above are elective subjects that have been offered by the department in recent years, and will be offered depending on the availability of teaching staff and number of students. Not all elective subjects will be offered within four years.

2. The Department's elective credits include general electives (with a minimum of 5 credits) in year one and year two and professional electives in year three and year four (see the table above for details).

3. Students who have passed the JLPT N1, N2 or N3 are eligible to apply for credit for some of the Japanese language courses offered by the Department of Applied Japanese at CHU. However, first year students who have already obtained JLPT N1 before admission and who apply for credit for all the N1 level deductible subjects in the first semester of their year one must meet the requirements of Article 6 of the above-mentioned Credit Regulations in order to be eligible for graduation.

4. The department has graduation thresholds for JLPT N2, BJT with a score of 400 or above, Japanese Tour Guide License, and Japanese Escort License. Those who have not obtained any of the above qualifications must obtain 2 credits of "Advanced Japanese" before graduation. However, Japanese students from sister schools of the double degree system are not subject to this restriction.

5. The department has a blocking system, and the blocking courses are "Intermediate Japanese I & II".

6. "Japanese Information Processing" is an elective course related to information applications such as WORD and IME Standard; "Creative Applied Japanese" and "Graduation Project I" are mandatory elective courses related to innovation and creativity; "Graduation Project II" is a compulsory course related to innovation and creativity. Students must pass the inspection standards in accordance with the "Implementation Measures for Innovation and Creativity Courses at CHU" to qualify for graduation.

7. Before graduation, students of the Department must meet the requirements of (1) "Measures for the Basic Competence Indicators of CHU Students" (2) "Measures for the Implementation of the Basic Competence Indicators for Students of Faculty of Humanities and Social Sciences, CHU" (3) "Measures for the Basic Competence Indicators for Students of Department of Applied Japanese, CHU". See the Department's website for the implementation measures.

8. Foreign students of the department who speak Japanese as their native language can apply to the department office to participate in a test organized by one of the Japanese professors of the department after enrollment

and pass the credit review committee of the department. They can be exempted from "Japanese Conversation I, II, III, IV" and "Japanese Composition I, II" and "Japanese Grammar I, II". The implementation measures are detailed on the department's website.

9. Foreign students in this department can submit an application, and after the approval of the department's administrative meeting, they can exempt the two compulsory translation courses of "Japanese Translation I &II" for the elective courses of the same department with the same credits.

10. In order to cultivate students' self-learning ability and understand SDGs issues, we have initiated autonomous exploratory learning in their year one. Students are requested to complete the "School level Autonomous Learning Course" in their year one, and the credits earned can be recognized as 9 credits of external subjects.

11. In order to cultivate and enhance students' ability to apply the latest technologies in AI and metaverse, and to ensure that first-year students have the latest technological knowledge, our students are required to complete the "AI Experience 2.0 Course" in their first year, and the credits earned can be recognized as 9 credits of other departments.

12. Students in this Department who have obtained 9 credits of "Workplace Internship", 4 credits of "Overseas Workplace Experience", and 2 credits of "Cross-Cultural Workplace Experience" from the College of International Humanities, Social Sciences and Smart Commerce (all of the above courses are credits from other departments) can also apply to be recognized as elective credits for this department.

13. In order to achieve the "AI ability" in the basic competency index of CHU students, students in this department must pass the AI ability test within the period of study in accordance with the "Implementation Measures for AI Ability Test for Students of CHU" to be eligible for graduation.

14. The above course information is subject to the actual start of the semester.
